## **SITUATION SUMMARY**

#### **2017 Statewide Winter Storms**

#### **Cal OES Coastal Region**

#### Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- · Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- · Assessment will commence and further details will be provided once released.
- State Route 1 opened briefly on 06/02/17 for locals and delivery access. Full closure resumed the evening of 06/02/17 through Tuesday 06/06/17 in the evening.

#### Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ½ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed last week due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- There is no estimate when this section of State Route 1, approximately nine miles north of the San Luis Obispo/Monterey County line will reopen.

#### Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

## **SITUATION SUMMARY**

#### **2017 Statewide Winter Storms**

#### **Cal OES Inland Region**

River Forecast – The following river is forecast to meet or exceed Flood stage:

- Mariposa County:
  - Merced River at Pohono Bridge is forecast to exceed flood stage on and off at above 10.0 feet and up to 10.6 feet through 06/09/17.
    - Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.
- · Placer County:
  - Truckee River at Truckee is forecast to exceed flood stage at 4.5 feet the evening of 06/06/17.
    - Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

#### River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

• Alpine County: East Fork Carson River at Markleeville, West Fork Carson River at Woodfords

Please see link for River Forecast Guidance - <a href="http://www.cnrfc.noaa.gov/">http://www.cnrfc.noaa.gov/</a>

#### **Cal OES Southern Region**

River Forecast - The following river is forecast to meet or exceed Flood stage: Mono County:

- West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage at 6.0 feet and up to 6.8 feet through 06/09/17.
  - At 6.0 feet: Flood Stage. Some minor flooding of lowlands, pastures and rural roads. Maximum diversion to Topaz Lake is about 1300 cfs. Remainder goes down the West Walker to Smith Valley/Wellington. If Topaz is releasing, flow at Wellington will be Topaz release plus amount going the West Walker below the Topaz diversion. Approximately 3000 cfs.
  - At 6.6 feet: Minor to moderate flooding of lowlands, pastures and some rural roads along the river from Walker to Topaz Lake.
     Moderate flooding on the lower West Walker (Smith Valley/Wellington) and mainstem Walker (Mason Valley/Yerington). Some sandbagging of structures likely in the Mason Valley/Yerington area. Approximately 3800 cfs with a 1 in 10 chance of occurring any given year.

No 911 Outages	No 911 Outages	No 911 Outages

#### **Service Interruptions:**

On 06/05/17 at 1137 hours, the California State Warning Center (CSWC) was notified by the Cal OES 911 Branch that a landline telephone service outage has occurred in Adelanto in San Bernardino County.

- 3,435 lines are impacted.
- The affected lines do not have the ability to dial 9-1-1.
- The PSAP can receive wireless 9-1-1 calls.
- The outage is due to a fiber cut during construction 4.3 miles outside of the Phelan central office.
- · Technicians have been dispatched to make repairs.
- · Estimated time for restoral is 2200 hours.
- The Cal OES 9-1-1 Branch and the CSWC will continue to monitor the situation and provide updates as they become available.

Per the Cal OES 9-1-1 Branch on 06/05/17 at 2221 hours, the fiber cut was successfully repaired by Frontier on 06/05/17 at 2142 hours and service restored at Adelanto.

#### **Remote/Community Isolations**:

· None reported

## **WEATHER OF CONCERN**

#### **Weather of Concern**

• Wet weather returns to Northern California starting Wednesday evening, with precipitation spreading across the area by Thursday afternoon and continuing through Friday. Confidence continues to improve that this will be relatively wet system for June, with Thursday possibly the second or third wettest on record for the date for some locations. Possible afternoon thunderstorms on Friday.

#### **Active Weather Warnings, Watches and Advisories by County:**

- <a href="http://www.wrh.noaa.gov/sto/brief/wwa\_bc\_cal.php">http://www.wrh.noaa.gov/sto/brief/wwa\_bc\_cal.php</a> Temporarily unavailable.

## **WEATHER SYNOPSIS BY REGION**

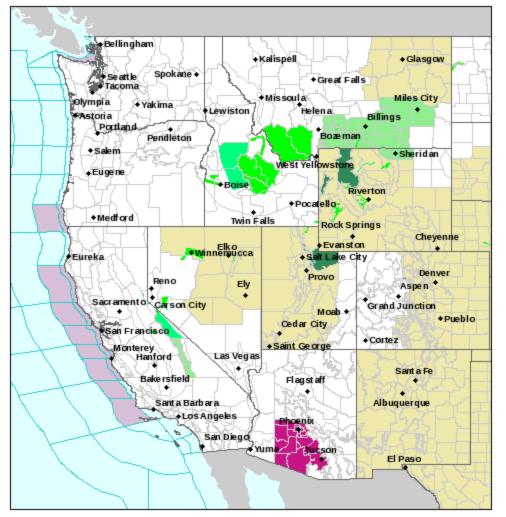

#### **NORTHERN CALIFORNIA**

For the next few days there will not be a large change in the weather, with dry and somewhat unseasonably warm conditions continuing. A big change in weather pattern will be noticeable Wednesday with some cooler weather as a low pressure trough arrives off the coast. Some cloudiness and possibly a few showers are expected to develop over the northwestern mountains that day. The low will be moving ashore Thursday with quite a bit of rain developing over all areas of Northern California starting Wednesday night at the coast and spreading inland Thursday. Some showers will be lingering in the northern and eastern areas Friday and Saturday as well. Higher pressure with dry, warming conditions will return Sunday. There will be some chance of gusty northerly winds developing late in the weekend. Temperatures will be in the low and mid 90s for the next few days in the warmest inland areas then plummet Thursday to around 70 which will be as much as 15-18 degrees below seasonal normal. Temperatures will be slow to warm up until early next week. Starting Wednesday, there will be a few days with areas of gusty southwest to west winds.

#### **SOUTHERN CALIFORNIA**

There will be little change in the weather through Wednesday as the region remains in between a ridge of high pressure centered over the Desert Southwest and a trough over the Pacific Northwest. Maximum temperatures will be 5 to 10 degrees above normal away from the coastal areas, with mid 70s to mid 80s across the mountains and mid 80s to mid 90s in the valleys. Minimum humidity will be mainly between 12% and 25% above and inland from the marine layer. The marine layer will be around 2,000 feet deep across Southern California, with morning low clouds and fog making it into the coastal valleys. The trough over the Pacific Northwest will drop south Thursday through this weekend bringing significant cooling and an increase in humidity. Temperatures will be near normal Thursday and then below normal Friday through this weekend. The marine layer will deepen and morning low clouds and fog will make it to the lower coastal mountain slopes by Friday. South to west winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas Wednesday afternoon through this weekend.

# **Cal OES LAW ENFORCEMENT MISSIONS**

## **Cal OES Law Missions**

Nothing significant to report at this time.

## **Cal OES MISSIONS**

#### **Cal OES Missions**

- 2017-SOC-34379: Technical specialist for spillway floor inspections at Oroville Dam, Butte OA Demobilizing
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

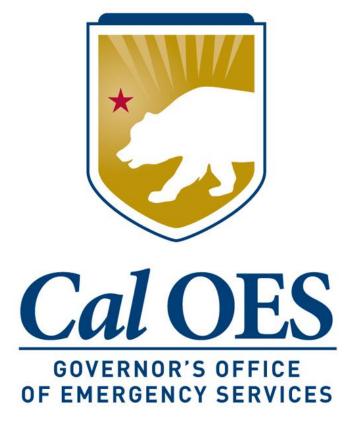

#### Presidential Declaration Storms - FEMA-4301-DR-CA & FEMA-4305-DR-CA

Preliminary Damage Assessments are complete for counties named under Presidential Declaration FEMA-4301-DR-CA and FEMA-4305-DR-CA: Alameda, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Trinity, Tuolumne, Yolo, Yuba

#### Presidential Major Disaster Declaration - FEMA-4308-DR-CA

Assistance for emergency work and the repair or replacement of disaster-damaged facilities: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Glenn, Humboldt, Kings, Lake, Lassen, Marin, Mariposa, Merced, Modoc, Monterey, Napa, Nevada, Plumas, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba Counties.

### Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
